LOOK BOOK

be classy with EYE GENTRY

BRAND STORY

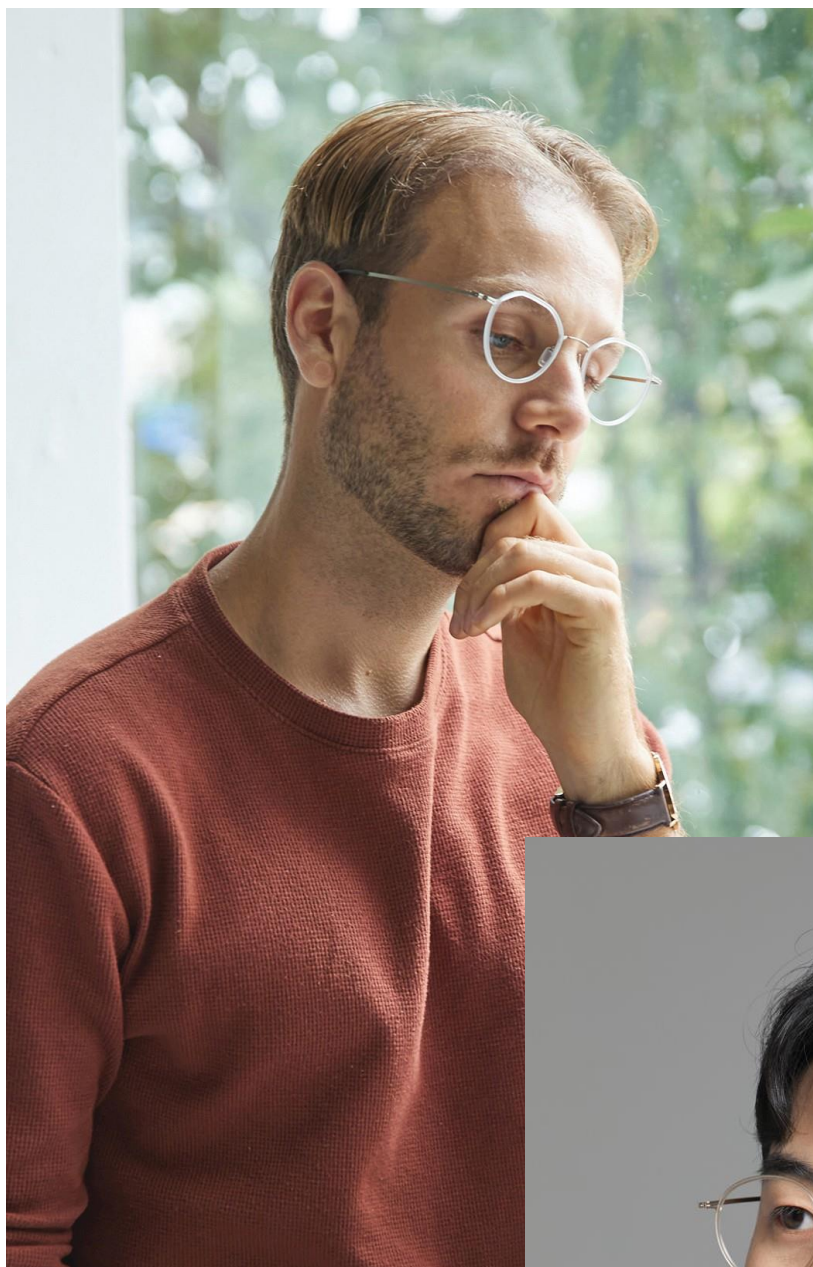

It is a brand created by an incumbent optician with the entire production process. In other words, it is a brand of eyeglasses made 'properly' for customers with the eye of an optician.

If the existing eye:street products had a vintage and luxurious feel, this new product focused on a modern and practical feeling.

Once again, the optician participated in the whole process, creating a more customer-friendly product than any other brand.
